

## Steuben Prevention Coalition Participation Survey

**The purpose of this Self-Assessment Survey is to find out how we as coalition volunteers and staff members are performing and what needs to be improved.**

**We have seen dwindling numbers in our volunteer/membership in meeting participation and in activity involvement, and we would like to know how to make better use of your valuable time as a volunteer/member. Please let us know if there are things that you would like to see taking place that are not and/or things that you would like to see discontinued that are not effective.**

**Please be as honest as possible. We cannot improve how we operate or what we do unless we know what needs to be improved.**
