

Steuben Council On Addictions

Steuben Council on Addictions is a well-established information and referral based agency that has been providing prevention education to schools, communities, and organizations within Steuben County for over 45 years.

Steuben Council on Addictions is funded in part by New York State Office of Alcoholism and Substance Abuse Services (OASAS) and the United Way of the Southern Tier.

Services We Offer:

Prevention Education Services

We are dedicated to assisting our community in choosing healthy, safe and drug free alternatives through evidence based curriculums as well as custom designed educational programs. Our educators are able to provide various programs for all age groups based on the need of the school, agency or community.

Professional Trainings

We provide Prevention Education Training to teachers, schools, service groups, business and industry. We will custom design a training program depending on agency requirements.

Multi-media Resource Libraries

We have resources available countywide for schools, human service agencies, teachers, treatment providers including videos, brochures, pamphlets and display items.

Advocacy for Adult Services

We assist self-help groups with starting up groups, referrals and organizing positive alternative activities.

Substance Abuse Screenings & Referrals

We offer screenings to determine if further substance abuse assessment is needed. These screenings are free of charge and provided in a confidential and private setting.

Services continued...

Impaired Driver Program for Steuben County (IDP)

We administer this county-wide Court referred evidence based education program covering many aspects of the traffic system and drinking and driving. We work with other IDP agencies, the DMV, treatment providers, magistrates, locally and state-to-state to ensure program integrity and completion.

Help That Works... Hope That Lasts.

VISION

We envision a greater community that understands and works to eliminate the underlying causes of substance abuse. We envision a greater community in which those affected by substance abuse regain healthy lifestyles and become agents for positive change.

MISSION

Our mission is to help people build healthy productive lifestyles.

VALUES

RESPECT

We value and accept all persons for their unique gifts, circumstances, and needs; believing in the inherent worth and sacredness of each person.

INTEGRITY

We seek to affect wholeness in all our relationships - individually and organizationally by keeping our word, and being faithful to those we serve.

COMPASSION

We offer our services in a comforting manner.

HOSPITALITY

We welcome all, especially those most vulnerable and in need, to an environment of dignity, safety and a sense of being "at home".

EXCELLENCE

We consistently aim to achieve the highest quality outcomes while striving for innovation, collaboration and continuous quality improvement.

STEWARDSHIP

We utilize our human, material, and financial resources in a responsible and accountable manner.
